## NO SKATING ON BASIN

Warm Day Spoils Sport—Ice is  
Unsafe.

Persons who expected to enjoy  
skating on the tidal basin were dis-  
appointed this morning, when the ice  
was declared by officials to be un-  
safe on account of the rise in tem-  
perature.  
The ice is melting fast. The  
weather man predicts a drop in the  
mercury tonight. This morning it  
was the coldest at 7 o'clock with 32  
degrees registered, but the cold  
east point reached by the mercury to-  
night will be 23.  
Besides, the Bureau says it may  
snow or rain tomorrow and it will be  
cloudy.  
The temperature at 1 o'clock this  
afternoon stood at fifty-five.

## CALLS SUGAR CHEAP AND VALUABLE FOOD

Mrs. McClary Says Sucrose is  
Most Digestible of All  
Body Fuels.

Just suppose sucrose is split into  
glucose or dextrose, or into fructose  
or levulose, and allowed to decom-  
pose, what do you think it would  
become? No, not limburger; merely  
sugar—pure and unadulterated cane  
sugar.

And sugar, says Mrs. McClary, who  
has been trying to persuade the  
President to lead the simple life on  
two-bits a day, is one of America's  
cheapest and most necessary foods.

"For," says Mrs. McClary, without  
even stuttering, "sucrose is really  
the most digestible of all foods, ex-  
cept maltose, glucose, or fructose,  
since it merely requires to be split  
into glucose and fructose in the in-  
testines before being absorbed."

"That being the case, why is it not  
possible for us poor mortals who are  
trying to get a strangle hold on the  
high cost of living, to avail ourselves  
of this simple and cheap  
food?" was asked of Mrs. McClary.

**Excessive Use Harmful.**  
And Mrs. McClary, who claims to  
know nothing about focus, but to be  
merely a press agent, came right  
back.  
"Because to depend upon sugar  
would tend to exclude other much-  
needed substances from our diet and  
cause disturbances of digestion."

Mrs. McClary went on to tell of the  
danger and dangers of eating  
sugar. She said that a simple sugar  
tend to obesity or even to a normal  
gain in weight as the years advance,  
should eat sparingly of sugar, because  
of its fuel value and ready absorp-  
tibility.

**Lightweight, undernourished in-  
dividuals may find sugar a valuable  
source of heat and energy if well di-  
luted and used as an addition to a  
diet fully sufficient in other respects.  
Such people particularly should avoid  
taking candy, sodas and such indul-  
gences between meals, since they tend  
to clog the appetite for other foods,  
and, as already explained, the sugar  
alone, notwithstanding its high en-  
ergy value, is lacking in all round  
dietetic requirements.**

**5,000 Calories For Laborer.**  
Mrs. McClary evidently considers  
that President Wilson is about one-  
sixth more active than the average  
business man. The menus submitted  
to the President for his cheap eating  
experiment contained 3,000 calories,  
while the average daily requirement  
by Mr. Business Man should be only  
2,500 calories. Mrs. McClary says that  
the woodsawyer on heavy manual la-  
bor should eat at least 5,000 calories  
of food per day.

"Any one who wastes food in these  
days commits a crime against soc-  
iety," said Mrs. McClary. "It would  
seem that more attention should be  
paid to the food value of potato skins.  
The farmer who wastes them, and  
Why should we throw them into the  
garbage pail at a time when some  
of the leading nations are doling out  
food tickets to the people, and other  
nations are establishing meatless  
days?"

**Glad to Praise.**  
The New Reddy  
A Prominent Washington  
Matron Gives Glowing Tes-  
timonial for Plant Juice.

In an interview, yesterday, The Plant  
Juice Man, who has his headquarters at  
The People's Drug Store, corner of 7th  
and N. Y. streets, where he is intro-  
ducing the new herbal stomach remedy,  
Plant Juice, said:  
"If people would only realize that 90  
per cent of all the ills which the hu-  
man flesh is heir to, are directly trace-  
able to that much abused organ, the  
stomach, and when the digestive organs  
are not properly performing the work  
which Nature has assigned them, then  
nutrition, which is absolutely essential  
to the recovery of other diseases, can-  
not be lacking, and there can be no  
permanent relief, it usually begins from  
weakness, from a lack of vital activity  
in the secretory glands of the stomach;  
hence a remedy that will arouse these  
part and infuse them with vitality, will  
remove the cause, and the dreadful  
symptoms, which denote stomach, liver,  
and kidney trouble will vanish."  
Plant Juice stimulates the secretory  
glands, attacks and destroys all poisons  
in the blood, corrects disordered condi-  
tions of the stomach, liver, and kidneys,  
restores them to normal condition. This  
contention is verified daily by scores of  
local people in direct testimony.

One of the most recent is that of  
Mrs. Samuel Hance, of Capitol Heights,  
a prominent Washington matron, who  
sent to allow her name to appear in  
print on account of the great benefit de-  
rived from Plant Juice. She writes:  
"For many years I have suffered with  
neuralgia of the head and rheumatism  
in my arm and shoulders, and I suf-  
fered such pain that I could not raise my  
arms to comb my hair. This trouble was  
brought on by putting my hands in cold  
water, and it affected my spinal cord  
and entire system; I was so nervous I  
could not sleep at night, and got very  
weak and entirely run down. I had no  
appetite and nothing tasted good to me.  
I had headaches, and was badly consti-  
pated, had read and heard so much  
about Washington people who had been  
cured by your Plant Juice that I finally  
decided I would try it. I am certainly  
glad that I did for it has made a new  
woman of me and words cannot express  
my gratitude. I know that if it would  
relieve me in the condition I was in,  
that it would relieve anyone. I am glad  
to give this public endorsement for it."

## 1,500 CADETS WILL MARCH IN PARADE

Washington High School Boys  
to Have Own Band in In-  
augural Procession.

Fifteen hundred cadets from the  
Washington high schools are to pa-  
rade down Pennsylvania avenue on  
March 5 to the music of their own  
band.

Superintendent of Schools Thurston,  
in a letter to Col. Robert N. Harper,  
chairman of the inaugural committee,  
this afternoon, said 1,500 white and  
400 colored cadets will be in line.

"The cadets will provide their own  
musical organization," Superintendent  
Thurston explained. "Whether it will  
be a band or a drum corps has not  
yet been decided. It probably will be  
the former."
